CASE STUDY · RETAIL

How we secured a multi-site retail group across Wellington.

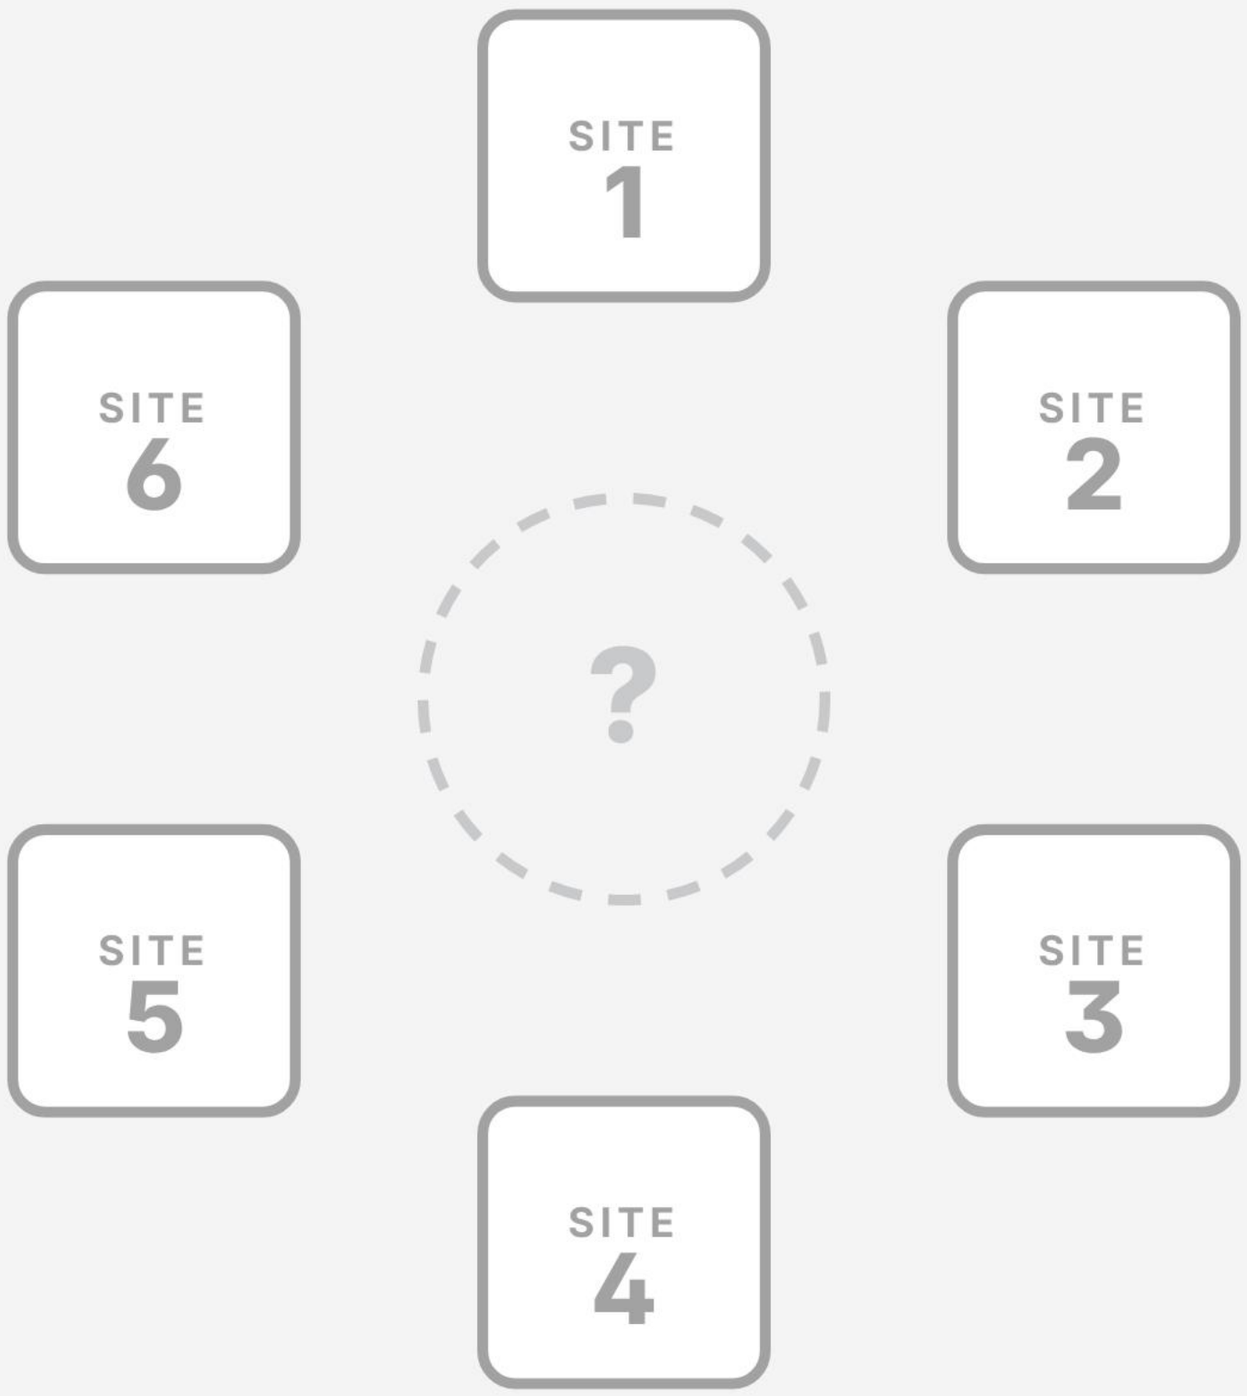

6	1	24/7
SITES	SYSTEM	MONITORING

Swipe to see how →

01 THE CHALLENGE

Six sites.
No single view.

The client needed visibility and control across all six of its sites — without checking each one separately.

02 OUR APPROACH

One design for every site.

1 **Design**

A single, centralised system planned across all six sites.

2 **Deploy**

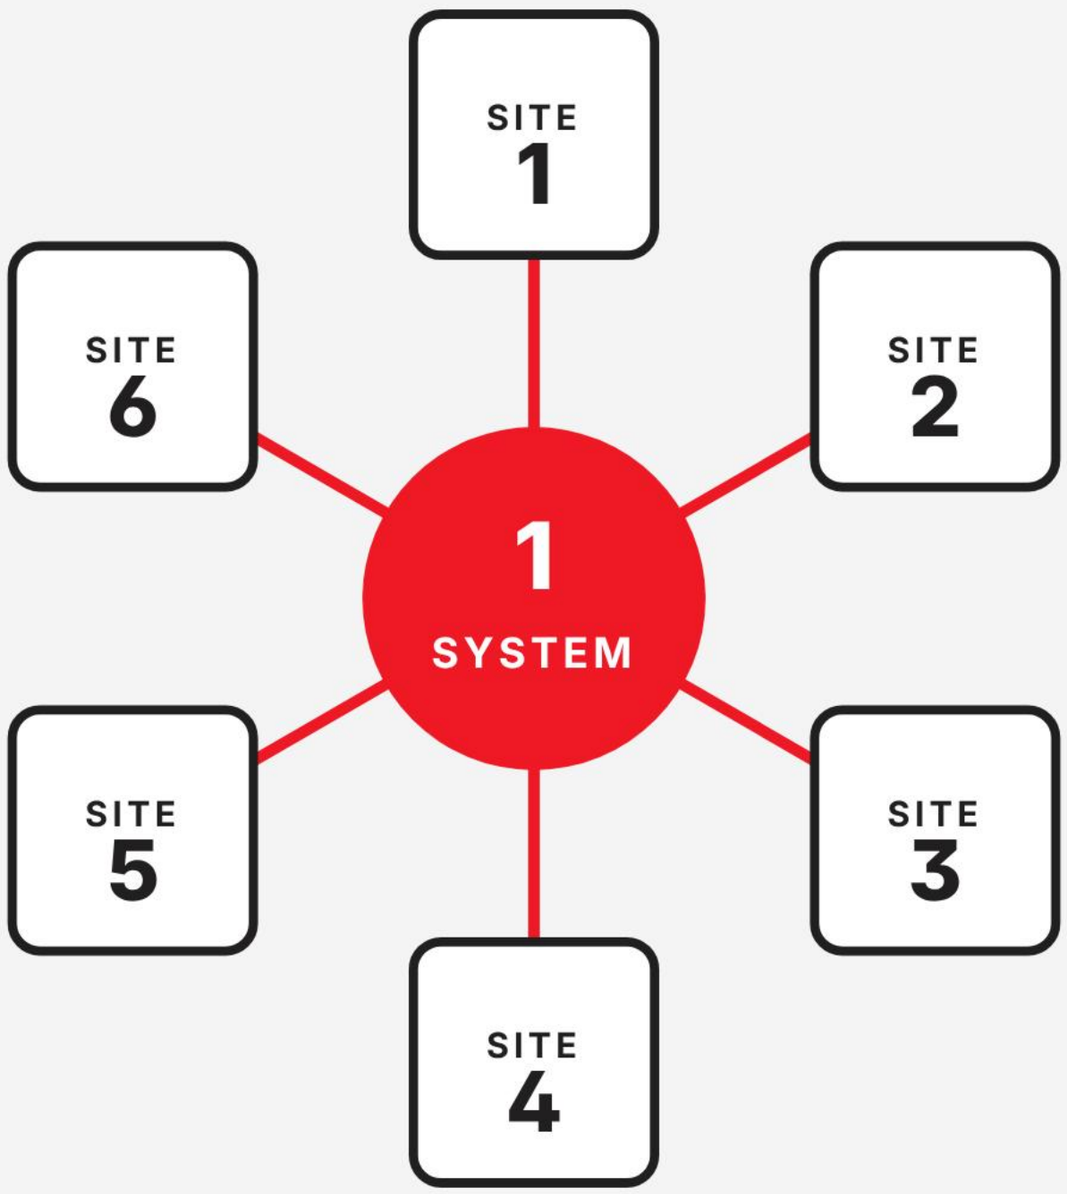

Integrated CCTV and access control installed at every location.

3 **Monitor**

Connected to 24/7 monitoring so nothing is left unwatched.

03 THE RESULT

Every site.
One place.

Unified view of all six sites

Access controlled from one system

Monitored around the clock

RED WOLF
HIGH LEVEL SECURITY

Running more than one site?

We'll help you see — and control — all of them from one place.
